Mr. Cantrell holds the audience spellbound at the Christmas Dance.

Students enjoy the Christmas Dance.

Everyone had a good time at CTI's first social event.

CTI students take frequent field trips.

A woman's touch is added to the enterprise.

Students spend their free time at the theater.

This electrical installation course is a "charge."

The student lounge is a good place to relax after class.

Mr. Hart must have really studied hard in school - he knows so much about automotive mechanics.

A warm smile, a genuine interest, and a loyal friend - that's Marie.

What does this thing do?

Those in Mr. Cantrell's drafting classes can be sure they are getting the best.

No one knows whether Sheila is going or coming? I'll bet it's a triple, double-malted milk shake she's after.

Registration day and then . . .

. . . to work!

And so we have passed another  
milestone and are on our way up  
to a fuller, better way of life

Sheila, it has been so nice having you as a classmate this year. It's been a hard year but it's almost over now. Maybe next year will be better. You are a lovely girl and I hope the very best of everything in your future.  
Dot Hoyle

Sheila, you have helped make my return to school a most enjoyable experience. It has been a great pleasure knowing you. I hope your future is as bright as the noon-day sun.  
Verna Walker

Shukla,  
I guess no words could  
express how much I  
admire, respect and love you.  
When I came to school down  
here, I didn't know anybody or anything  
through you. I've learned not to look on  
the dark side of everything. Through you, I've  
found in order to make <sup>friends</sup> you have to be a friend.  
You're the type of person who never thinks of themselves;  
but of others first. That is the thing that makes you  
be much fun to be with, to talk with. You're completely  
yourself at all times. These, and many, many more, are the  
qualities I'd admire in you. I've never been able to  
make friends easily, but for you it's just a "natural".  
Your friendship has meant so much to me. You  
always have some pretty good problems, mistakes, or whatever. Usually  
you have some pretty good advice. We've had so much  
fun this year... and I know we will next year  
too. I'm very proud to be one of ~~the~~ your many friends.  
Stay as you are, Shukla - full of life and fun and you'll  
always be happy.

Love from a friend always,  
Ann
